

Term 2 Week 10

28th June

2019: Issue 6

Our core values: Community Opportunities Relationships Expectations & Achievements

To Develop Aspirant, Resilient Learners who are Empowered Global Citizens

PBL
Spectacular

"We are committed to keeping children safe from harm and have a zero tolerance of child abuse"

A message from the Principal

As the end of the semester quickly approaches it's a great time to reflect upon and celebrate achievements.

It's been an incredibly busy term two and I'd like to thank and acknowledge all staff for their work and support of students.

We have welcomed some new staff who are replacing staff on leave and value the contribution they are making to our school and the students they teach. One of our long time staff members in Maths and Science, Jason Carter, will take leave for semester two to join the staff of Eaglehawk Primary School. We wish him all the best. I wish all of our families, students and staff a good term break and look forward to working with you once again in semester two.

Compass Semester Reports - Compass online

This year we implemented Compass continuous assessment with the introduction of Learning Tasks that are aimed to provide feedback about your child's learning. All schools must report at the end of each semester against the Victorian Curriculum progression points, inclusive of General Capabilities. Previously reports have been printed and sent home to families however this year they will be available online through Compass at the end of the first week term three. A printed report can be provided to parents/Carers upon request at the general office.

Mobile Phone Ban Announcement 2020

On Wednesday 26th June the Deputy Premier and Minister for Education, James Merlino announced the implementation of a ban on mobile phones for all primary and secondary schools to take effect 2020. Consultation regarding the ban will take place with our school community in semester two. If you have any questions regarding the ban please don't hesitate to contact me at the College.

PBL Spectacular

I'd like to congratulate the teachers and students involved in the Year 7 PBL Spectacular on Wednesday after school. The event was a celebration and opportunity for students to showcase their learning from across the semester. The PBL model is a style of curriculum delivery that puts students at the centre of their learning. Nurturing inquiry and curiosity, agency and voice to apply critical and creative thinking and problem solving to their learning. The students have built their collaborative and cooperative skills working in teams across the semester, learning about their peers and providing feedback to one another and their teachers about their learning.

I look forward to working with and supporting you again in semester two.

Dani Derksen

Friday July 19th (end of Week 1, Term 3)

A message from the Assistant Principal

Hi everyone, I hope this finds you dry and warm!

This term in year level assemblies, we have focused on discussions about our “Vision For Learning: To develop aspirant, resilient learners who are empowered global citizens.”

As a staff at ESC, we think this is a very important statement of our purpose as educators and vision for our students. It was generated through teacher and student discussion and feedback, but is only useful if students understand their individual link to that vision.

During the year level assemblies, we discussed the meaning and some examples of:

Aspiration: the ambition of achieving a goal and making the most of your opportunities.

Resilient learners: the ability to flexible but strong in gaining the knowledge and skills you need for that goal

Empowered global citizens: being confident as a community member to build positive and respectful relationships and help other community members to do the same.

It was great to hear the aspirations of our students. We have students passionately expressing their desire to become doctors, builders, paramedics, plumbers, neural psychologists, police officers, engineers, army officers and many more. It is humbling to hear this and be reminded of our part as educators and mentors in that journey.

The next step in that journey for our Year 8's, 9's and 10's, this is a particularly important term in that students will be undertaking course counselling and subject selection for 2020. Please keep your eye on Compass to assist with information in the lead up to **Thursday 15/8 (week 5 of term)** to assist your child to make the most of their subject selections. On that day, our Year 7's will have a careers immersion day, including a visit to La Trobe University. They will follow the usual school day timeline for the “Discover La Trobe” experience.

Thanks very much, enjoy the holidays and I look forward to seeing you again in Semester 2.

Ian Berry *Assistant Principal*

Course Counselling

Years 8,9,10

Thursday August 15th

(Term 3, Week 5)

2:00pm—7:00pm

Make your appointment via Compass

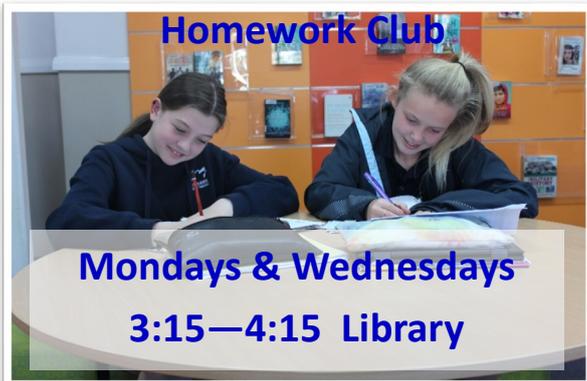

Location: Grieve Community

LAST DAY of Term 3

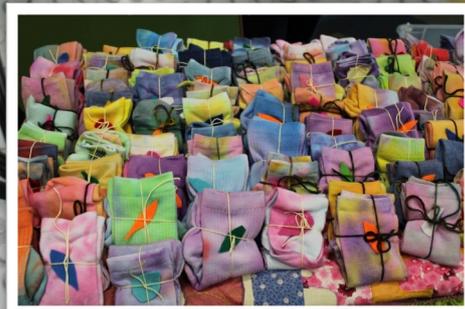

Fri Sept 20 2:30pm Finish

PBL Spectacular Celebrates Learning Success

Students, Parents, Families, Staff and Community Members attended ESC on mass to celebrate the achievements of Year Seven students this week. Lester Community was converted into a sight not to be missed, with student work on display, fundraising stalls in action (Energy Breakthrough BBQ, GROW produce stall, and The Kitchen Garden Sock Pop Up Shop) and a talented musician (Jayden Davies) providing entertainment for the crowd. All Year Seven students have undertaken studies in relation to Persuasive Writing, Mapping and Physics centered on the driving question of 'How can we design an entertaining, profitable and sustainable amusement park for the Eaglehawk community?'.

PBL (Project Based Learning) engages and inspires learners with hands-on, real-life learning.

The teachers of PBL strongly believe that it is not enough to educate students in a set of isolated subject areas. Of equal importance, is the need to acquire skills in context, and to explore content that is relevant to students and transcends the boundaries of the traditional subjects. PBL at Eaglehawk Secondary College integrates Science, Humanities and Literacy.

PBL
 Mantha Campbell FB

Rube Goldberg Project

8D students have recently completed a Rube Goldberg project in Science. This involved designing, creating, and building a compound machine to ring a bell.

Year 7 Badminton win

ESC had a great day at badminton recently with our Year 7 girls taking home the gold! Well done girls and all the teams for a great effort.

YEAR 7 GIRLS - 1st YEAR 7 BOYS - 3rd Year 8 GIRLS - 4th YEAR 8 BOYS - 5th

Didgeridoo Painting

This year for Reconciliation Week, the focus was on the Wakakirri dance. The Marrung Girls are working with a large number of Year 7 to 9 girls refining a dance around the theme of reconciliation.

We begin with a traditional dance, choreographed by the girls then move into a combination dance of compassion, understanding and reconciliation with the other non-indigenous girls.

Public performance will be August the 19th at the Ulumbarra Theatre at 7pm (approximately).

Tickets are normally \$36 but will be supplemented by the school and will be offered at \$25. (There is a limit of 2 tickets per family for this offer – all other tickets at full price)

Pictured is Briah, one of four indigenous boys who are currently decorating our Digeridoos for the Wakakirri performance. With the base colour on, they are now in the designing process. Other boys involved are Djarron L., Lachlan W. and Jackson G.

Judy Chalmers

Carlton Football Club

Last Tuesday June 18th, we were fortunate enough to receive a visit from four Carlton Football Club players, including current captain Marc Murphy. Students were given an opportunity to speak with the players about their careers in football in order to gain a better understanding of what it takes to become an elite sportsperson. Thank you to ESC's official AFL Ambassador Mr Richards for organising the visit.

STEAM CLASS

Period 1 Wednesday 26th June saw the STEAM class holding a mini symposium/science fair, displaying their natural antiseptic and disinfectant products they have created this term.

Head Start Program – School Based Apprenticeships & Traineeships

The Head Start program is a new State Government and Department of Education initiative seeking to increase the number of students taking up school-based apprenticeships and traineeships across the state

The focus is on increasing the amount of time that students from Years 10–12 will spend on-the-job undertaking their training providing better long term outcomes for students and employers.

ESC is one of the first schools in Victoria to participate in this new model. The program aims to increase the number of students taking up school-based apprenticeships and traineeships, in addition to completing their VCE or VCAL Secondary School Certificate.

Peter Tyack is one of 5 Head Start Coordinators in the Loddon Campaspe cluster, specifically working with Eaglehawk Secondary College, Crusoe College and Bendigo Senior Secondary College. Peter is available to work with students, parents, school staff, employers, LLEN and training organisations to get the best outcome for all participants.

The aim is for students to continue full time into their industry careers with strong literacy, numeracy and problem-solving skills after completing their schooling. These are the essential skills our young people will need within a modern, rapidly changing employment environment in response to employer and industry demands.

This dual qualification combination of an apprenticeship or traineeship and the completion of their secondary schooling provides the sustainability for long term future employment opportunities.

If you would like more information about the Head Start Program you can contact Peter on:

Mobile: 0436 006 956 or email: tyack.peter.w@edumail.vic.gov.au

Any queries or articles for inclusion in this newsletter can be directed to:

The Male Guide to Age-Specific Health Screenings

Regular checkups are necessary for men to protect themselves against injuries, illnesses, and diseases that develop with age.

For Soldiers, Periodic Health Assessments typically cover the basics, but you may need to get additional screenings to catch health risks that develop over time. Bring this list to your next check up to make sure you are getting all the recommended screenings for your age.

Periodic Health Assessments Include:

Height and weight checks

Vision, hearing, and dental exams

Blood tests for Sickle Cell, G6PD, DNA, and HIV

Required immunizations

Find out which screenings are recommended for your age group:

In Your 20s

- ✓ Annual physical exam to include blood pressure, height, and weight
- ✓ Vision/dental exams once a year
- ✓ STD testing/HIV screening every two years
- ✓ Testicular cancer screening every year, monthly self-exams
- ✓ Cholesterol testing every five years

In Your 30s

- All of the above and...
- ✓ Blood tests for diabetes, thyroid disease, liver problems, and anemia
- ✓ Screening for coronary heart disease once a year

In Your 40s

- All of the above and...
- ✓ Cardiovascular evaluation every five years
- ✓ Screening for prostate cancer every year

In Your 50s

- All of the above and...
- ✓ Annual screening for Type II Diabetes
- ✓ Vision and hearing exams every year
- ✓ Screening for depression every year
- ✓ Screening for lipid disorders annually
- ✓ Screening for colon cancer with fecal occult test, sigmoidoscopy, or colonoscopy annually

In Your 60s

- All of the above and...
- ✓ Annual screening for osteoporosis
- ✓ Continue colorectal screening based upon previous studies and results
- ✓ Screening for dementia and Alzheimer's annually

All Army National Guard Soldiers are individually responsible for the maintenance of their medical, physical, and mental fitness. Follow this screening guide, but also talk with a doctor or Medical Readiness NCO if you have specific concerns.

Music Week 2019

GROW PROGRAM

The magpies have been keen helpers lately!!!

Lester Foods Kitchen Garden

Mr Wright is calling for donations of old usable garden equipment to help begin the new Lester Foods Kitchen Garden

This garden is a student agency and voice project started by the Year 9 Plan, Harvest, Eat cooking class with a focus on sustainability and the reduce, reuse, recycle push from the Greater Bendigo Council. The class has been designing the area to allow greater access to fresh produce for the cooking classes outside the kitchen door.

We have recently had a donation of poly piping—approximately 200 metres that will be used in the garden as the irrigation system.

Items that we require are : trowels, watering cans, spades, rakes, wheelbarrows.

Any items can be left at the school office.

The space as it currently appears

The computer generated image of the finished kitchen garden

Free dental screenings available at Eaglehawk Secondary College

Child Dental Benefit Scheme - \$1,000 worth of dental care over a 2 year period

Government funding is available for students up to 17 years of age and the majority of secondary school students are eligible. The team at Martin Vale Dentistry will visit ESC to conduct free dentals screenings on the dates below.

A screening will determine if dental care is required. Parents will be notified, and appointments made for the needed treatment to take place at Martin Vale Dentistry's comfortable private practice in Queen Street, Bendigo.

This is a great opportunity to have Bendigo's most experienced dental practice take care of your child's dental needs with a minimum of fuss. Having dental issues treated now will reduce the possibility of preventable problems occurring in the future when funding expires.

Scheduled dates:

Year 10	<u>July 31st</u>
Year 9	<u>August 7th</u>
Year 8	<u>August 14th</u>
Year 7	<u>August 21st</u>

MARTIN VALE
DENTISTRY

If you wish for your child to participate in the complimentary screenings, please complete and return the consent form by 22nd July 2019. Forms were sent home last week, or can be obtained from the school office.
